OBJECTIVE

Frontend Developer with hands-on experience building responsive web applications using React.js, JavaScript, HTML, and CSS. Experienced in developing reusable UI components, integrating APIs, and creating accessible user interfaces through internship and academic projects.

EDUCATION

B.Tech - Computer Engineering , Watumull Institute of Engineering and Technology, Maharashtra	7.88
Higher Secondary	91.50%, 2021
SSC	81.00%, 2019

SKILLS

Languages: HTML, CSS, JavaScript, Python, SQL

Frontend: React.js, Tailwind CSS, Express JS, Responsive Web Design

Backend & APIs: Express.js, REST APIs, Django, MongoDB

Tools & Platforms: Git, GitHub

WORK EXPERIENCE

Website Developer – iBraine Digital LLP, Mumbai Jul 2026 – Present

- Developing and maintaining the iBraine CRM platform with a focus on frontend development.
- Building responsive interfaces, reusable components, and enhancing CRM modules for commercial readiness.
- Collaborating with the team to improve usability, performance, and overall user experience.

Frontend Developer Intern – AIVOT AI Private Limited, Navi Mumbai (Remote) Apr 2026 – Present

- **NGO Website:** Developed a responsive website using React.js, Vite, and CSS by building reusable UI components, responsive layouts for desktop/mobile, and implementing Marathi language support for improved accessibility.
- **Body Measurement Website:** Currently developing the frontend with React.js and Vite, implementing Login/Signup authentication using FastAPI, and creating interactive UI with complex animations, hover effects, and reusable components.

Intern – Easy Pay Pvt. Ltd. Jun 2024 – Jul 2024

- Developed responsive web interfaces using HTML, CSS, and JavaScript.
- Contributed to frontend development for an ONDC-related product.

PROJECTS

• **Finance Dashboard** 🗄️ Apr 2026

Financial dashboard built using React.js for tracking and visualizing financial data through charts and responsive UI components.

• **MovieXplore (TMDB Project)** 🗄️ Jan 2026

Movie and TV discovery platform built using JavaScript, Tailwind CSS, and TMDB APIs for fetching and displaying media information.

• **3D Virtual Try-On** May 2025

Virtual clothing try-on system designed to visualize garment fitting using 3D mannequin models generated from body measurements.

• **Face Recognition Music Recommender System** 🗄️ Apr 2024

Music recommendation system that suggests songs based on facial emotion detection using computer vision techniques.

• **Aerial Road Construction Monitoring** 🗄️ Sep 2024 – Dec 2024

Smart India Hackathon 2024 Grand Finalist

A system for monitoring road construction progress using drone imagery and geotagged data.

- Developed a Streamlit-based road construction monitoring system using drone imagery, geotagged data, and AI-driven analysis for progress tracking, verification, and measurement.

ACHIEVEMENTS

- Grand Finalist – Smart India Hackathon 2024
- Co-authored research paper on 3D Virtual Clothing Try-On Systems
